

NIKA NOTEWORTHY CLIENTS

Below are just a few respected clients that trust us with their mission critical projects. While they are based in the U.S., we also bring the ability to work worldwide. We have performed our services in several countries across the globe, including Belgium, Canada, Costa Rica, Malaysia, and over 40 U.S. States and territories, including Hawaii and Puerto Rico.

LEADING DESIGN. EXPERT RESULTS.

HEALTHCARE
& MISSION CRITICAL

FULL-SERVICE ARCHITECTURE & ENGINEERING

NIKA is a full-service architecture and engineering firm focused on the federal government and private institutions, with specialized expertise in healthcare and complex facilities. From concept through construction, we are committed to forming lasting partnerships while providing sustainable design solutions that meet real-world needs. Our collaborative approach and dedication to sound decision making results in forward-thinking ideas and solutions that make your project a greater success.

OUR SERVICES INCLUDE:

- + Architecture
- + Interiors
- + Medical Planning
- + Mechanical Engineering
- + Electrical Engineering
- + Plumbing
- + Fire Protection Engineering
- + Structural Engineering
- + Commissioning
- + Physical Security & Communication

LEED CERTIFIED PROJECTS

NIKA is a proud member of the U.S. Green Building Council and is currently designing several LEED certified projects. We practice the principles of sustainable design and apply them to all projects, wherever and whenever feasible.

SPECIALIZING IN MISSION CRITICAL SERVICES

NIKA maintains a core focus on healthcare and complex facilities, specifically including hospitals, clinics, research facilities, laboratories, and embassies. From concept through construction, we engage in all facets of the design and build process, including: planning, condition assessments, energy audits, schematics, design development, construction documentation and construction administration. Our expertise is in both renovation of existing infrastructure, including phasing and complex coordination, as well as new building design.

WHAT THE NIKA DIFFERENCE MEANS FOR YOU

Our difference is in our people and in our full-service, integrated approach to architecture and engineering. What this means for you is that you receive one point of contact for your project. As a result, you experience greater overall project efficiency, faster response times and the ability to get project changes and challenges addressed and overcome immediately. This integrated approach proves to narrow down scope creep and keep your project on time and on budget.

DEDICATED TO YOUR SUCCESS:

- + We have completed over 400 healthcare & mission critical projects
- + We have worked extensively in both the United States and abroad
- + We have completed tasks for over 75 Medical Centers for the VA
- + All services completed in-house by our 40+ person team
- + NIKA's expertise has been leveraged to create guidelines and criteria on mission critical projects for several U.S. agencies
- + We have performed peer reviews for numerous major healthcare and mission critical projects with construction costs of \$100M+

SPECIALIZING IN BIM & 3D TECHNOLOGY

NIKA specializes in the areas of 3D AutoCAD and Building Information Modeling (BIM). All NIKA design professionals have completed extensive training on REVIT for both the architecture and MEP suites. In addition, we have standards and libraries set up that assist with the efficiency with which we are able to complete our designs. Currently, NIKA is using REVIT to create BIM models for numerous projects for the Department of Veterans Affairs as well as the Department of Defense.
